Wasatch Stake Tabernacle or

Heber City Municipal Building

This red sandstone building was built during 1887 & 1889. It is located at 75 North Main Street in Heber City Utah.

Alexander Fortie was the architect & helped in the building process as a finish carpenter. George Blackley helped also.

Elisha Averett was the master mason & others helped as well. Much donated labor & materials eased the financial burden & it still cost \$30,000.

Abram Hatch was the first stake Pres. of Wasatch stake & supervised the total project.

It was originally heated with five pot-bellied stoves & lighted by a number of coal oil lamps hanging from the ceiling.

The Heber City offices are now beautifully housed in this sturdy building.

The Wasatch Wave Building

This ship lap lumber building was built about 1903 and is located at 31 West Center Street.

The "Wasatch Wave" weekly newspaper had its 100th birthday on 23 Mar 1989. The original editor-owner was William Buys.

This man was well educated. ~~for~~ ~~his day~~; having graduated from the University of Utah and was admitted to the bar in courts of Utah & USA.

He served this community well as County attorney, county recorder and Wave editor.

The Wave was published first in the upper room of the old court house, then in upstairs of Heber Exchange & then in the above building till it moved to 675 West 100 So. - *WJB*

TENDONS, TENDON SHEATHS AND FASCIA

Incision

1511	Drainage of tendon sheath, acute suppurative tenosynovitis, on digit	7.0
1514	single palmar and/or ulnar or radial bursa	35.0
1515	multiple or complicated	by re portrop
1517	Injection of medication, tendon sheath	3.0
1519	Incision of fibrous sheath of tendon for stenosing tenosynovitis, including freeing of tendons or removal of foreign body	20.0

Excision

1550	Excision of lesion of tendon or fibrous sheath, or ganglion, digits only	70.0
1562	Excision of synovial cyst of popliteal space (Baker's cyst)	30.0

Repair

(P)

LDS Heber 2nd Ward Meeting House

This red brick building was built with a sandstone foundation and was completed under direction of Bishop Joseph A. Rasmund and James Heber Moulton as a construction supervisor. It is located at #5 South 100 West.

Much donated labor & material kept costs down to \$19,415.74.

There have been three churches on that corner. The first was a lumber building housing the Methodist Church under Dr. Ely of SLCU. That building was replaced by this one & used by the ~~Methodist~~ ^{Wesleyan} many years. The St. Lawrence Catholic Church now owns it.

The David Fisher Home

This is a red brick home built for David & Mary Ann McDonald Fisher. He was a successful farmer, and miner in Heber & Park City respectively. This home is located at 124 East 400 South.

Later, this home was used as the Mark Haws Rest home which was managed by Jess & Lyrone Buckner.

Now it is owned by Mrs Wesley Budd. He was an architect and had the home registered with the Utah Historical Register - RPB

The Abram Hatch Home

The two best examples of finely cut stone masonry are the Wasatch Stake Tabernacle & this, ^{the} Abram Hatch's second red sandstone home.

It is located at 81 East Center Street & was built by Elisha Averett and his crew for the first stake President of Wasatch Stake - Abram Hatch.

This home was later used as the Lydia Hawsey Rest Home & finally purchased by the Zion's First National Bank & extensively restored to its original splendor.

B

The John E Austin Home

This home was built ~~1905~~
by Thomas Lyon Fisher and his
men in 1905.

It was first built for John E.
Austin who became a very success-
ful sheep rancher in this area.
He was one of many men who
contributed to the reputation of
Heber City being the biggest sheep
shippers in the western USA.

This home was purchased by
Dr William Russell Wheritt in 1908
and has remained in that family
to this day. Dean & Lois Wheritt
Todd owned it after Emma Hatch
Wheritt and now David & Vickie
Knight Todd live here.
It is located at 315 E Center RR Green
4-8-89

The George Blackley Home.

This ^{ship lap} lumber home was built by George Blackley himself. He was a carpenter by trade & spent much time doing the scroll gingerbread work on the ^{outside} trim to give a beautiful finished appearance.

It is located at 421 East 200 No and served George & his wife Elizabeth White Blackley & their family of one girl & four boys very well.

Later Mr. Blackley ran the sprinkler wagon around Weber to keep the dusty streets wet in the summertime.

0743	simple or compound, open reduction	40.0

(R)

The Joseph Stacy Murdock Home

This home is a prize example of an early built pioneer red sandstone home.

It is estimated that was built about 1862 or 3, because children were born there about 1864 and on.

Close examination reveals that the stones were laid up in random fashion with only the lintel cut stone.

The owner, ^{the 1st} presiding Bishop of Provo River Valley, Joseph Stacy Murdock, and the wife Chief Tabby signed the Indian Peace Treaty in this home on 20 Aug 1867. Many others enjoyed the big beef barbeque on the John Carroll lot which is now the North School Playground to the south.

It is located at
115 E 300 No,

0314 trunk

0315 scalp, arms and legs

0316 forehead, cheeks, chin, mouth, neck, axilla, genitalia, hands and feet

0317 eyelids, nose, ears and lips

Burns-List percentage of body surface involved and depth of burn. Does not include skin grafts.

0351 Initial treatment, first degree, where no more than local treatment

necessary

0352 Dressings, initial or subsequent under anesthesia, small

0353 under anesthesia, large or with major debridement, per hour

0354 without anesthesia, small office or hospital

0355 without anesthesia, medium (whole face or whole extremity, etc.)

0356 without anesthesia, large (more than one extremity, etc.)

Suture-Simple

✓ 0381 Primary, secondary or delayed suture of wounds, up to 1/4 inch long

✓ 0382 Primary suture of wounds over 1/4 inch long, each additional 1/4 inch

✓ 0386 Removal of sutures (by other than original surgeon)

Destruction

0401 Electro-surgical destruction with or without surgical curettage of

facial nevus, leukoplakia, actinic or senile keratosis, or keratocan-

thomas, to include local anesthesia, one lesion.

(50% for each additional lesion up to a total of three; over three

each additional lesion 25%.)

0402 complicated lesion(s)

by report

John Crook's Home

This home is made of red brick with white stone ^{corners} ~~edges~~. It is located at 188 west 300 North.

It was built inside the area where old Fort Heber once stood. He was one of the original first exploring pioneering men into Provo River Valley & he kept a good history of that early time.

John Crook was very interested in genealogy history & music. He was the first choir leader in Heber, but was a ^{self taught} farmer & stock raiser. He owned the first red sandstone quarry 5 mi. east of Heber. He built ^{this red} sandstone home from stone from ~~this quarry~~ ^{his quarry} at ~~315 W Center where this J. Crook home~~ ^{315 W Center where this J. Crook home}

~~upon lived later~~
Brick front was added
later

John Murray Murdoch home

This home is located ~~at~~ 261 No 400 W in Heber City. It was built in 1880.

John Murray Murdoch was a professional shepherd from Scotland who was brought to Utah by Brigham Young to look after the Church Sheep near SLC.

By the time he arrived in Utah those sheep had been sold and so Brigham Young directed him to come to Heber.

He establish the first cooperative sheep herd in Provo River Valley in 1860. He gathered sheep from all the families & took them into the hills to graze, bred & lamb & then brot them home in the fall - all marked & ready for their owners. He first lived in a dugout in the north east part of Fort Heber -

Local Excision and/or repair including simple closure of an essentially round or elliptical section of skin, benign cicatricial, fibrous, inflammatory, congenital, cystic, etc., lesion of skin, subcutaneous tissue or mucous membrane.
Any location:

0172	Lesion diameter up to and including $\frac{1}{8}$ inch or 1-3 mm.	3.0
0173	Lesion diameter over $\frac{1}{8}$ to and including $\frac{3}{8}$ inch or 4-9 mm.	4.0
0174	Lesion diameter over $\frac{3}{8}$ to and including $\frac{3}{4}$ inch or 10-19mm.	5.0
0175	Excision of more than one lesion, each additional 50 per cent according to size up to 3 lesions.	I.C.
0176	Lesion diameter more than $\frac{3}{4}$ inch, complicated, or more than 3 lesions.	I.C.

Excision including simple repair or treatment by any other method except radiation of MALIGNANT lesions of skin or mucous membrane, any location, except melanomas to include local anesthesia.

0180	Lesion diameter up to and including $\frac{1}{8}$ inch or 1-3 mm.	6.0
0181	Lesion diameter over $\frac{1}{8}$ inch to and including $\frac{3}{8}$ or 4-9 mm.	8.0
0182	Lesion diameter over $\frac{3}{8}$ inch to and including $\frac{3}{4}$ inch or 10-19mm.	10.0
0183	Lesion over $\frac{3}{4}$ inch or usually complicated	I.C.

Trunk, arms or legs:

0188	lesion diameter up to $\frac{1}{4}$ inch	6.0
0189	lesion diameter $\frac{1}{4}$ to $\frac{1}{2}$ inch	8.0
0190	lesion diameter $\frac{1}{2}$ to $\frac{3}{4}$ inch	10.0

Face, scalp, ears, neck, hands, feet, genitalia:

0191	lesion diameter up to $\frac{1}{4}$ inch	10.0
0192	lesion diameter $\frac{1}{4}$ to $\frac{1}{2}$ inch	15.0
0193	lesion diameter $\frac{1}{2}$ to $\frac{3}{4}$ inch	20.0

Eyelids, nose, lips, mucous membrane:

0194	lesion diameter up to $\frac{1}{4}$ inch	15.0
0195	lesion diameter $\frac{1}{4}$ to $\frac{1}{2}$ inch	20.0
0196	lesion diameter $\frac{1}{2}$ to $\frac{3}{4}$ inch	25.0
0197	Lesions over $\frac{3}{4}$ inch, complicated or unusually located	by report

0210	Debridement of extensively exzematized or infected skin (except burns)	2.0
------	--	-----

0225	Avulsion, nail, partial, or complete, simple	2.5
------	--	-----

0228	Excision of nail, partial, including nail bed or nail fold	7.0
------	--	-----

0229	Excision of nail, complete, including nail bed or nail fold	8.0
------	---	-----

0238	Excision of pilonidal cyst or sinus	30.0
------	-------------------------------------	------

miscellaneous lesions (use appropriate procedure number and state diagnosis)

Hemangioma (see 0175-0178, 0260-0324)

Hidradenitis (see 0108, 0175-0178, 0260-0324)

Lipoma (see 0175-0178, 0260-0324)

Lymph node dissection (see 2651-2672)

Melanoma (see 0188-0197, 0260-0324)

Ulcer-vascular or inflammatory (see 0175-0178, 0260-0324)

Skin Grafts

0300	Pinch, split or full thickness skin to cover small ulcer, tip of digit or other minimal open area (except on face, use 0301-0304) up to defect size $\frac{3}{4}$ inch diameter	5.0
------	---	-----

Values for items 0301-0304 include simple debridement of granulations
